

REMARKS

Applicants have studied the Office Action of June 6, 2005 ("Office Action"). It is respectfully submitted that, upon entry of the present Amendment, the application is in condition for allowance. Claims 105, 114 and 115 are pending in the present application and have been rejected. No new matter has been introduced by the present Amendment.

In the Office Action, Examiner rejected claims 105, 114 and 115 under 35 U.S.C. § 112, second paragraph, as being indefinite because the claims *"contain the trademark/trade name VIVONEX®."* Examiner found that *"the claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product."* This rejection is respectfully traversed.

Applicants have amended claim 105 to include the complete listing of ingredients in the total enteral nutrition product VIVONEX® T.E.N. (commercially available from Novartis Nutrition Corporation) in lieu of a reference in the claim to the product's trademark. Attached hereto (as "Appendix A") is a printout from Novartis Nutrition Corporation's website that details this list of ingredients.

Claims 114 and 115 have been amended to properly refer to the "total enteral nutrition composition" in claim 105, from which they both depend.

In light of the foregoing remarks and amendments to the claims, Applicants respectfully submit that the claims are not indefinite, and therefore respectfully request reconsideration and withdrawal of this rejection under 35 U.S.C. § 112, second paragraph.

//...p.6

All of the claims remaining in the application are now believed to be allowable. Favorable consideration and a Notice of Allowance are earnestly solicited. If questions remain regarding this application, Examiner is invited to contact the undersigned at (213) 633-6869.

Respectfully submitted,
Henry C. Lin *et al.*
